<b>PRESERVED LAND / CONSERVATION EASEMENTS / SADC PRESERVED FARMLAND</b>	
Parcel is Preserved Open Space	<input type="checkbox"/> Yes <input type="checkbox"/> No
Parcel includes a conservation easement	<input type="checkbox"/> Yes <input type="checkbox"/> No
Parcel is Preserved Farmland	<input type="checkbox"/> Yes <input type="checkbox"/> No
The parcel <u>is</u> currently preserved through any one of the above and one of the following is attached:  <input type="checkbox"/> Fully executed conservation easement and mapped delineation of the area to which the easement applies if not the full parcel; or  <input type="checkbox"/> Municipal or County resolution; or  <input type="checkbox"/> Recreation and Open Space Inventory with Block(s) and Lot(s).	The parcel is <u>not</u> currently preserved through any one of the above and one of the following is attached:  <input type="checkbox"/> Official letter from municipality (Mayor/ Municipal Administrator/Manager) identifying Block(s) and lot(s) not currently preserved.
<input type="checkbox"/> The Parcel is preserved but through another means	
Update Description:	

<b>NJDEP SANITARY NJPDES GROUND WATER DISCHARGE POINTS / NJDEP SANITARY NJPDES SURFACE WATER DISCHARGE POINTS / PUBLIC COMMUNITY AND PUBLIC NON-COMMUNITY WELLS</b>	
NJDEP Sanitary NJPDES Ground Water Discharge Point(s) currently exists on the subject area	<input type="checkbox"/> Yes <input type="checkbox"/> No
NJDEP Sanitary NJPDES Surface Water Discharge Point(s) currently exists on the subject area	<input type="checkbox"/> Yes <input type="checkbox"/> No
A Public Community Well currently exists on the subject area	<input type="checkbox"/> Yes <input type="checkbox"/> No
A Public Non-Community Well currently exists on the subject area	<input type="checkbox"/> Yes <input type="checkbox"/> No
Update Description:	
The following is attached: <input type="checkbox"/> NJDEP confirmation of the presence/absence of either NJPDES Ground Water Discharge Points; or NJPDES Surface Water Discharge Points; or Public Community Well; or Public Non-Community Well. (Divisions of Water Quality and Water Supply, respectively.) Updated postings by NJDEP are acceptable.	

### DIGITAL SUBMISSIONS

For all RMP Updates, the digital submission standard will assist the Highlands Council and its participating entities in receiving, processing, utilizing, maintaining, and disseminating digital data. All digital submissions shall meet the NJDEP Geographic Information System Mapping and Digital Data Standards (N.J.A.C. 7:1D Appendix A) and the following minimum requirements:

1. All digital geospatial data must meet or reference published standards such as those defined by the Federal Geographic Data Committee or a defined survey standard, regardless of scale. Testing against base maps or photography of known accuracy determines the accuracy of data. This will ensure appropriate positional accuracy of the geographic data, and therefore, compatibility of digital information.
2. All digital geospatial data must be provided to or produced for the Council as GIS geodatabase or Shape Files (.SHP) and are required to be in North American Datum 1983 (NAD83) horizontal geodetic datum, and in the New Jersey State Plane Coordinate System (SPC) or the most current SPC and in an ARCGIS compatible format.
3. All digital geospatial data must be documented using the Federal Geographic Data Committee (FGDC) Metadata Standard or be compliant with the FGDC metadata standard.

Any submissions to the Highlands Council that do not satisfy the requirements will be considered incomplete and the preparer notified of any necessary information. See the NJDEP Geographic Information System Mapping and Digital Data Standards (N.J.A.C. 7:1D Appendix A) for the complete submission standards.
